

ReadyDose™ Delimer Tablet

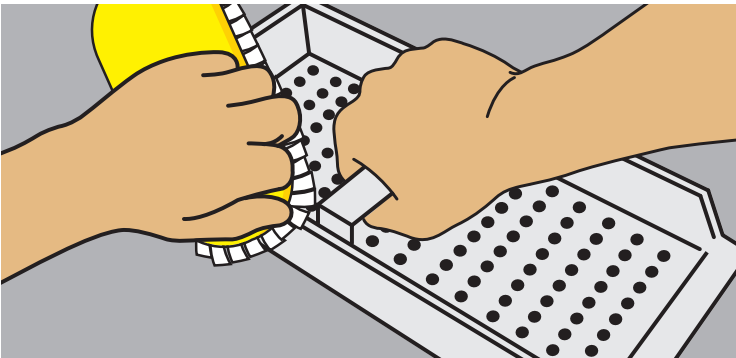

1

Drain machine and turn off tank heaters. Carefully remove detergent capsule from dispenser.

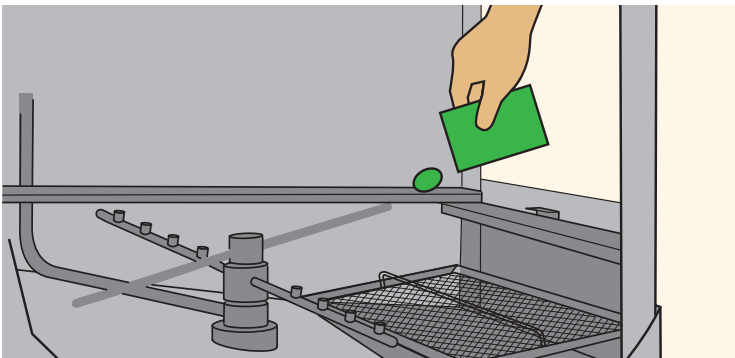

2

For low-temperature machine, turn on the delime switch.

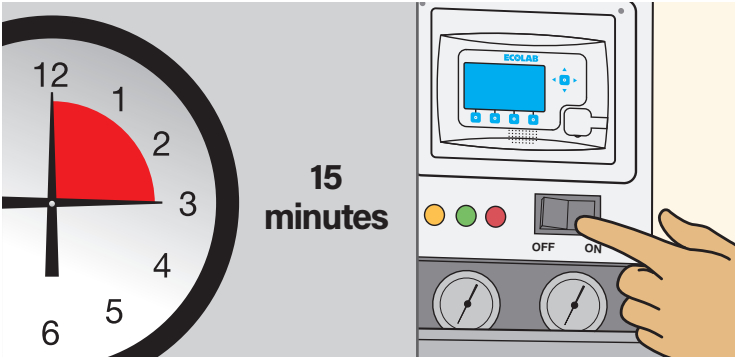

3

Remove debris from scrap trays, close drain, fill machine with fresh water and turn on tank heaters.

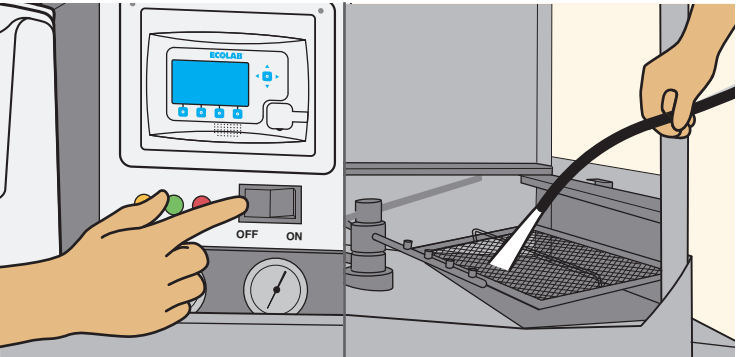

4

Open delimer packet and drop 2 - 6 tablets into dishmachine depending on scale buildup
- Do not mix with any other chemicals especially bleach and/or chlorine

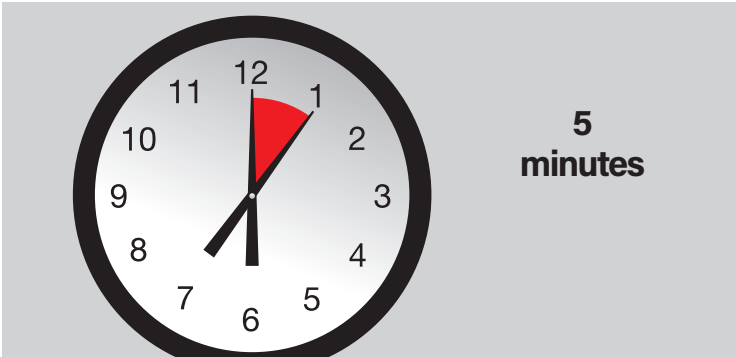

5

Run machine for 15 minutes - longer if there is major scale buildup.

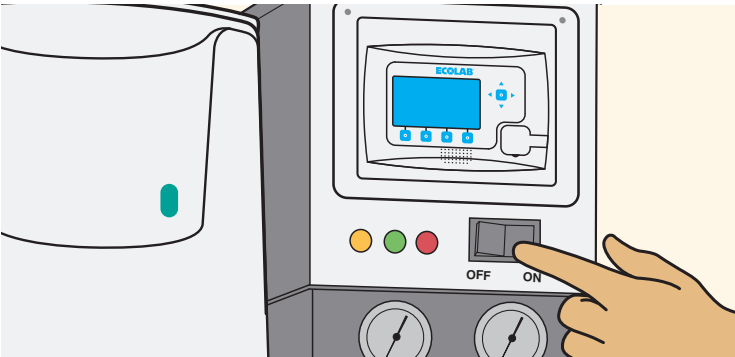

6

Turn off machine and tank heater, drain and rinse inside machine thoroughly with fresh water.

7

Close drain and refill machine with fresh water. Run for 5 minutes. Drain the machine. Repeat this step twice to completely remove delimer from the machine.

8

Turn on tank heaters and carefully return detergent capsule to dispenser. For low-temperature machine, turn switch back to normal.
