

# StainBlaster™ Sunscreen Stain Remover

## Laundry Reclaim Solution

- Sunscreen Stain Remover was created to provide an effective method of reclaiming full laundry machine loads of linen stained with sunscreen that would otherwise have to be discarded. A high percentage of these badly stained items will usually be reclaimed, drastically lowering expensive linen replacement costs.
- Sunscreen Stain Remover contains powerful chemistry - please follow all use directions:**
  - Consult your Ecolab Service Specialist for instructions and procedures specific to your operation
  - Use Sunscreen Stain Remover only for reclaiming stained linen that would otherwise be discarded.
  - DO NOT MIX Sunscreen Stain Remover with any other products**
  - Do not use more or less Sunscreen Stain Remover than indicated on the use recommendation table
  - Use a 60 minute hot wash step to receive full benefit from the Sunscreen Stain Remover chemistry
    - A minimum water temperature of 125°F/ 52°C is recommended for best results
  - Use at least four rinses after Sunscreen Stain Remover processing to thoroughly remove all product from the linen
  - Sort linen carefully after processing; return all recovered linen to service
  - Avoid expensive, wasteful rewash; discard or "rag-out" any items that were not recovered.
- Not all yellow stains are caused by sunscreen**
  - To determine if yellow stains are a result of sunscreen, use the SUNSCREEN ON FABRIC test method found in the 440 Laundry Test kit
  - Acid will cause sunscreen stains to fade from bright yellow to white, caustic will convert the stain back to bright yellow

### USE RECOMMENDATION TABLE

| MACHINE CAPACITY     | SUNSCREEN STAIN REMOVER USED PER LOAD           |
|----------------------|---|
| Home Style Machine   | DO NOT USE                                      |
| Smaller than 50 lbs. | 1 - 16 oz. scoops                               |
| 50-65 lbs.           | 2 - 16 oz. scoops                               |
| 65-100 lbs.          | 3 - 16 oz. scoops                               |
| 100-135 lbs.         | 4 - 16 oz. scoops                               |
| 135-200 lbs.         | 5 - 16 oz. scoops                               |
| Larger than 200 lbs. | 3 - 16 oz. scoops per 100 lbs. machine capacity |

### SUNSCREEN STAIN REMOVER WASH FORMULA

| OPERATION | TIME (MINUTES)         | WATER TEMPERATURE | WATER LEVEL | PRODUCT                 |
|-----------|------------------------|-------------------|-------------|-------------------------|
| Wash Bath | 60                     | Hot               | Low         | Sunscreen Stain Remover |
| Rinse     | 3                      | Split             | High        | None                    |
| Rinse     | 3                      | Split             | High        | None                    |
| Rinse     | 3                      | Split             | High        | None                    |
| Rinse     | 3                      | Split             | High        | None                    |
| Rinse     | 3                      | Split             | High        | None                    |
| Extract   | To be field determined | -                 | -           | -                       |
